CT15

The CT15 is one of the top selling compact scrubbers on the market. It has a uniquely compact design that allows it to fit in spaces that other scrubbers cannot. It can be used to clean hallways, restroom stalls, entryways, and many other smaller areas without a decrease in maneuverability nor productivity. The CT15 features an adjustable handle that can be tilted down to the operator's height as well as the ability to be pushed down enough to fit easily under lower spaces, such as tables, desks, and chairs.
